

Tom Wilten

Biography:

Tom Wilten was born and graduated from high school at Port Arthur, Texas. He attended college and graduated from Baylor College of Dentistry in 1966. He is married, the father of two sons and continues to practice general dentistry in Dallas, Texas.

Resume'

He became interested in horticulture in 1973, his first attempt at propagation being English ivy. He served as president of the First Men's Garden Club of Dallas in 1991 and 1992. He has authored twenty original articles on various aspects of horticulture. He has been a master gardener since 2007, and he was accredited as a specialist in propagation in 2008. He is a member of the Speaker's Bureau, and he has taught propagation to the classes of the last three years to the master gardeners. His favorite topics include: propagation, shade trees and pruning.

Synopsis of "Be Fruitful And Multiply":

His power point presentation provides ten reasons why every gardener should be involved with and understand the underlying principles of propagation, simple and economical methods for propagating both sexually and asexually with a high degree of success, and demonstrated examples of success spanning decades.
